fahism2710@gmail.com

+916369033983

SKILLS

- **Languages** Python, TypeScript, JavaScript
- **Tools/Frameworks** React, Next.js, FastAPI, Tailwind CSS, Git
- **Databases** PostgreSQL (Supabase), MongoDB, Firebase
- **AI/Automation** LLM Integration, RAG Pipelines (Embeddings, Vector Search), API-Based AI Workflows

PROJECTS

CampusIQ

Final Year Project – AI Campus Assistant (RAG Chatbot)

- Developed an AI chatbot using FastAPI and OpenRouter to answer campus-related queries
- Built a RAG system with vector search (pgvector + embeddings) for accurate information retrieval

UniJourney

Personal Project – Study Abroad CRM Platform

- Built a full-stack CRM system using Next.js and Supabase for managing student applications
- Implemented RBAC and multi-tenant data isolation to securely handle multiple users

TradeMind

Personal Project – Trading Analytics Platform

- Created a trading journal platform using React, Vite, and Supabase for tracking trades
- Designed data visualization dashboards (Recharts) to analyze performance and trends

EDUCATION

Bachelor of Science in Computer Science

July 2023 – May 2026

St. Joseph's College, Tiruchirappalli

- CGPA: 7.33, Relevant Courses: Web Development, Databases, Software Engineering

WORK EXPERIENCE

AI & ML Intern

October 2025 – December 2025

Meerana Technologies, Chennai

- Developed AI-based features and supported real-world machine learning applications
- Integrated APIs and assisted in building automation workflows for systems
- Collaborated with team members to test, debug, and improve AI solutions

Java Programming Intern

May 2025 – June 2025

Aptone Technology, Trichy

- Developed Java-based applications using core programming and OOP concepts
- Implemented features and assisted in debugging and improving application performance
- Collaborated with team members to build, test, and maintain software modules
